Dear Mr. Duguay:

Your letter of June 11, 1973 has been under long consideration here at the Agency, but I must report to you that the final decision was not to have a formal ceremony when our statue of Nathan Hale was put in place here at the Agency.

Thank you for your colorful pictures of the Nathan Hale Ancient Fifes and Drums of coventry. They have been looked at by many of us here at the Agency, but as I believe you can probably use them again, I am taking the liberty of returning them to you. We are, however, keeping your corps history and related information about Knowlton's Rangers.

It was very good of you to think of us. The statue of Nathan Hale is now tastefully mounted outside on the promenade near the quadrangle at the main entrance.

Sincerely,

Angus MacLean Thuermer
Assistant to the Director
